

NEW EDEN ACTIVITIES & CAREERS

Field guide: activity summaries, starting points, risks and current primary references

PVE

ROOKIE & MISSION PVE

Career agents • Level 1–5 security missions • Epic arcs • Homefront Operations • Exordium starter activities

Learn ships, navigation, fitting and combat in low-risk content. Exordium is PvP-free but pays less than normal highsec.

<https://www.eveonline.com/eve-academy/careers/enforcer>

EXPLORATION

Probe scanning • Data & relic sites • Ghost & Sleeper caches • DED sites & escalations • Wormhole mapping

Scan signatures and hack containers. Value and danger rise sharply outside highsec; always plan the exit first.

<https://www.eveonline.com/eve-academy/careers/explorer>

WORMHOLE PVE

Sleeper anomalies • Gas harvesting • Blue-loot farming • Rampant Drone Fabricator • Nomadic living

No local intelligence, shifting routes and polarized holes make preparation part of the activity, not paperwork.

<https://wiki.eveuniversity.org/Wormholes>

ABYSS & COMBAT SITES

Abyssal Deadspace (T0–T6) • Combat anomalies • Pirate strongholds / FOBs • Incursions • Limited-time event sites

Abyssal Deadspace is timed filament PvE with weather, tiers and severe loss risk — not agent mission running.

https://wiki.eveuniversity.org/Abyssal_Deadspace

EMPIRE CAMPAIGNS

Military Campaign objectives • Seasonal mining & hacking • Campaign hauling / industry • Faction standings & LP • Visions of Greatness epic arc

Cradle of War campaigns combine PvE, PvP, mining, hacking, hauling and industry with lasting faction outcomes.

<https://www.eveonline.com/news/view/cradle-of-war-in-focus>

PVP

SOLO & SMALL GANG

Solo roaming • Small-gang skirmishing • Duels & proving fights • Low/null hunting • Wormhole hunting

Mechanical skill matters, but target selection, bookmarks, intel and disengagement matter more.

<https://www.eveonline.com/eve-academy/careers/soldier-of-fortune>

FLEET WARFARE

Factional Warfare • Pirate insurgencies • Nullsec sovereignty war • Structure warfare • Capital & command fleets

Join militia, corporation or public fleets. Roles range from tackle and logistics to command and capitals.

https://wiki.eveuniversity.org/Faction_warfare

AMBUSH & DENIAL

Gate camps • Bombing & interdiction • Combat probing • Black-ops drops • ESS reserve-bank robbery

Control movement and information with bubbles, bombs, probes, camps, cynos and reserve-bank pressure.

https://wiki.eveuniversity.org/Player_versus_Player

HIGHSEC CONFLICT

War declarations • Suicide ganking • Suspect baiting • Kill-right hunting • Anti-ganking / escort

CONCORD punishes illegal aggression; it does not prevent it. Know safety settings, war eligibility and timers.

https://wiki.eveuniversity.org/Suicide_ganking

INFRASTRUCTURE RAIDING

Skyhook theft • Mercenary Den attacks • Metenox raids • POCO conflict • Supply-line interdiction

Modern conflict includes Skyhooks, Mercenary Dens, Metenox drills and other production infrastructure.

<https://www.eveonline.com/news/view/equinox-expansion-notes>

INDUSTRY

RESOURCE HARVESTING

Ore & ice mining • Gas harvesting • Moon extraction • Planetary industry • Salvage

Mine ore, ice, gas and moons; extract PI; salvage battlefields. Fleet boosts and compression shape scale.

<https://www.eveonline.com/eve-academy/careers/industrialist>

2026 MINING

Built-in mining surveyor • Mining critical successes • Phased asteroid fields • Erratic ore reactions • Map-based ore scouting

Catalyst added surveying overlays, faster cycles, critical successes, phased fields and variable erratic ores.

<https://www.eveonline.com/news/view/catalyst-expansion-notes>

MANUFACTURING

T1 production • T2 invention & production • T3 reverse engineering • Capital construction • Structure production

Turn blueprints and components into ships, modules and structures. Margin begins with cost accounting.

<https://wiki.eveuniversity.org/Manufacturing>

REACTIONS & PROCESSING

Reprocessing • Composite reactions • Biochemical reactions • Hybrid / polymer reactions • Unrefined mineral reactions

Refine raw resources and run structure-based reactions for advanced materials and production chains.

<https://wiki.eveuniversity.org/Reactions>

TRADE & LOGISTICS

Station & regional trading • Hauling / courier contracts • Jump-freighter logistics • Industry supply chains • Market speculation

Move goods or information across regional markets. Collateral, route security and fees decide profitability.

<https://wiki.eveuniversity.org/Trading>

ORGANIZATIONS

CORPORATION LIFE

Join or run a corporation • Recruiting & mentorship • Corporation Projects • Freelance Jobs • Buyback programs

Projects and Freelance Jobs let corporations pay members or outsiders for measurable contributions.

<https://www.eveonline.com/news/view/legion-expansion-notes>

ALLIANCE & COALITION

Diplomacy • Fleet command • Logistics & doctrine • Territorial strategy • Alliance tournaments

Coordinate groups, diplomacy, doctrines, strategic fleets, infrastructure and shared objectives.

<https://wiki.eveuniversity.org/Alliances>

SOVEREIGNTY

Sov Hub management • Orbital Skyhooks • Colony resource logistics • System upgrades • Ansiblex networks

Equinox sovereignty is powered by stars and planetary colony resources, managed through Sov Hubs and Skyhooks.

<https://www.eveonline.com/news/view/equinox-expansion-notes>

STRUCTURES

Upwell ownership • Access-list management • Refineries & engineering • Fortification / defense • Public structures

Own and operate citadels, engineering complexes and refineries; manage fuel, services, ACLs and vulnerability.

https://wiki.eveuniversity.org/Upwell_structures

INTELLIGENCE

Scouting • Recon & watchlists • Wormhole chain mapping • Counter-intelligence • Espionage / theft

Map chains, watch routes and report hostile movement. Good information prevents expensive surprises.

<https://wiki.eveuniversity.org/Scouting>

COMMUNITY

TEACHING & SUPPORT

Rookie Help • Public help channels • Teach classes • Write / update guides • Mentoring in Exordium

Help pilots learn through channels, classes and current guides. Exordium now offers a dedicated mentoring space.

<https://www.eveonline.com/eve-academy>

PUBLIC COMMUNITIES

NPSI fleets • Incursion groups • Mining fleets • Hauling services • Public wormhole groups

Fly without joining permanently: NPSI PvP, incursions, mining, hauling and specialist groups remain viable paths.

https://wiki.eveuniversity.org/Public_fleets

CREATIVE WORK

Streaming & video • Podcasting • Journalism • Art & fiction • Third-party development

Build tools, stories, broadcasts and art around New Eden while respecting CCP and third-party platform rules.

<https://forums.eveonline.com/c/community/10>

SCIENCE & HISTORY

Project Discovery: cancer • Lore & history • Event archiving • Data analysis • Community research

Project Discovery now trains analysis for cancer and immune-system research using flow-cytometry data.

<https://www.eveonline.com/discovery>

IDENTITY & EVENTS

Roleplaying • Player events • Achievements & titles • SKINR design • Tournament play

Earn achievements and titles, create SKINR designs, roleplay, compete or organize player-run events.
